

**Fully funded**

# Specialist Knowledge for Teaching Mathematics (SKTM)

## Secondary Non-specialist Teachers

**Highly-regarded professional development offering secondary non-specialist maths teachers valuable CPD focusing on subject knowledge and pedagogy**

With the pressures of timetabling and the need to deploy staff flexibly, many secondary schools find that they have teachers teaching outside their specialism. This can mean teachers from a range of subject backgrounds teaching in maths departments, tackling complex topics, and having to plan lessons with unfamiliar content.

If you currently have non-specialists teaching in your maths department, and want to give them the opportunity to hone their subject knowledge and classroom practice, this programme is ideal.

### Testimonials

*"I have found it really useful to see different ways of explaining or teaching concepts." – Previous participant*

*"From attending the programme, the non-specialist teacher's confidence in his maths and the teaching of maths has improved. The expectations of his students are now higher" – Head of Maths*

**Find out more**

Search **secondary non-specialist SKTM** online or contact your local Maths Hub:

For further details, please visit the Matrix Maths Hub [website](#)

### Benefits

The SKTM Programme offers participants:

- six days, or the equivalent, of face-to-face or online expert input, plus further local support
- the opportunity to be part of a vibrant and supportive online community
- access to high-quality resources

The programme is fully funded by the Maths Hubs Programme, so is **free** to participating schools.
